Disclaimer: Any financial market trading involves risk and there is the potential for loss. Because the risk factor is high in the financial market trading, risk funds should be used in such trading. If you do not have the capital that you can afford to lose, you should not trade in the financial spot markets. No entirely safe trading system has ever been devised, and no one can guarantee profits or freedom from loss in any financial market worldwide. The potential for a margin call account loss exists in all foreign currency trading due to the inherently highly speculative nature of these markets. Financial trading is highly speculative. Onyx Capital reserves the right to terminate accounts for any reason. Please read our full risk disclosure or contact your account manager if you need any clarifications.
